

CONTENTS

Monika Poniewozik, Marzena Parzymies, Pawel Szot The influence of disinfection methods and liquid phase media on <i>Paphiopedilum insigne</i> seeds germination and media supplements on morphological features of protocorms in tissue culture	7
Yagmur Yilmaz, Ceknas Erdinc, Ahmet Akkopru, Selma Kipcak Use of plant growth promoting rhizobacteria against salt stress for tomato (<i>Solanum lycopersicum</i> L.) seedling growth	15
Mahendra Rai, Aniket Gade, Beata Zimowska, Avinash P. Ingle, Pramod Ingle Harnessing the potential of novel bioactive compounds produced by endophytic <i>Phoma</i> spp. – biomedical and agricultural applications	31
Ozge Kaya Demirkoser, Onder Kamiloglu Identification of phenological periods and yield, quality and vegetative characteristics of some wine grapes grown in the Eastern Mediterranean region of Turkey	47
Pedro Zamorano-Aguilar, Marcela Morales, Yudrum Rivillas, Juan López, Benjamín A. Rojano Antioxidant activity and cytotoxic effect of Chilean <i>Buddleja globosa</i> (matico) and <i>Ribes magellanicum</i> (zarzaparrilla) flower extracts	59
Tommaso Martinelli Plant morphology, vegetative biomass composition and energy content of three different <i>Silybum marianum</i> accessions	71
Andrzej Borowy, Magdalena Kaplan Chemical composition and antioxidant activity of borage (<i>Borago officinalis</i> L.) seeds	79
Erdal Ağlar, Ahmet Sümbül, Orhan Karakaya, Burhan Ozturk Determining of the fruit characteristics of pistachio grafted on wild <i>Pistacia terebinthus</i> L. under the Central Kelkit Basin (Turkey) ecological conditions	91
Pelin Keles Ozturk, Duygu Argun, Saadettin Baloglu, Davut Keles Effect of <i>Tobacco etch virus</i> (TEV) on yield and quality of red pepper in Turkey	101
Kamila Borowiec, Dominik Szwajgier Effect of processing on antioxidant and anticholinesterase activities of bilberry (<i>Vaccinium myrtillus</i> L.) juice	113
Halina Buczkowska, Andrzej Salata Inoculation with arbuscular mycorrhizal fungi (AMF) and plant irrigation with yield – forming factors in organic sweet pepper (<i>Capsicum annuum</i> L.) cultivation	125
Andrzej Salata Supplementary irrigation and drying method affect the yield and essential oil content and composition of lavender (<i>Lavandula angustifolia</i> Mill.) flowers	139
Barbara Skwaryło-Bednarz, Patrycja Maria Stępnia, Agnieszka Jamiolkowska, Marek Kopacki, Anna Krzepilko, Hanna Klikocka Amaranth seeds as a source of nutrients and bioactive substances in human diet	153
