

CONTENTS

Elżbieta Patkowska

Cover crops and soil-borne fungi dangerous towards the cultivation of *Daucus carota* L. 3

Bożena Matysiak, Artur Kowalski

The growth, photosynthetic parameters and nitrogen status of basil, coriander and oregano grown under different led light spectra 13

Ivana S. Glišić, Dragan P. Milatović, Nebojša T. Milošević, Slađana A. Marić, Milan M. Lukić, Branko T. Popović

Physicochemical and sensory characteristics of promising plum (*Prunus domestica* L.) genotypes bred at Fruit Research Institute, Čačak 23

Anna Muzykiewicz-Szymańska, Joanna Zielonka-Brzezicka, Adam Klimowicz

The impact of plant material freezing and extractant acidifying on the antioxidant potential and pigments content in extracts and raw materials of different carrot varieties 33

Aliakbar Goudarzian, Abdollah Ghasemi Pirbalouti, Mohammadreza Hossaynzadeh

Quantity and quality yield of essential oil from *Mentha × piperita* L. under foliar-applied chitosan and inoculation of arbuscular mycorrhizal fungi 43

Aydin Uzun, Mehmet Yaman, Hasan Pinar, Batuhan Durmuş Gok, Isa Gazel

Leaf and fruit characteristics and genetic diversity of wild fruit *Cerasus prostrata* genotypes collected from the Central Anatolia, Turkey 53

Seyed Mahdi Nabaei, Mohammad Reza Hassandokht, Vahid Abdossi, Mohammad Reza Ardakani

Tomato (*Solanum esculentum* Mill.) yield and nutritional traits enhancement as affected by biochar, organic and inorganic fertilizers 63

Muhammet Ali Gündeşli, Nesibe Ebru Kafkas, Murat Güney, Sezai Ercişli

Determination of phytochemicals from fresh fruits of fig (*Ficus carica* L.) at different maturity stages 73

Shahruz Habibi, Ali Ebadi, Ali Reza Ladanmoghdam, Siavash Rayatpanah

Effect of plant growth regulators on fruit splinting in Thompson navel orange 83

Andrzej Kalisz, Agnieszka Sękara, Aneta Grabowska, Konrad Sulak, Ewa Capecka,

Andrzej Libik, Rita Jurkow, Bogdan Kulig

Performance of biodegradable floating direct covers in the field production of butterhead lettuce during spring and autumn trials 93

Abdolrasoul Gandomi, Bahram Amiri, Shahram Sharafzadeh, Forood Bazrafshan, Saeid Hazrati

The response of different fertilizer applications on chamomile production and their quality characteristics .. 107

Hakan Başak

Comparison of cemele pepper with bell pepper genotypes (*Capsicum annuum* L. var. *grossum*) with respect to agronomic and morphological characteristics 121
