

CONTENTS

Mostafakamal Shams, Behzad Haghghi, Ertan Yildirim, Vali Rabiei, Sezai Ercisli, Sirus Masiha, Ahmad Golchin The effect of simultaneous application of nitrogen and copper on yield and steroidal saponin production in <i>Trigonella foenum graecum</i> L.	3
Agnieszka Rosińska, Hanna Dorna, Dorota Szopińska Effects of osmopriming on Germination, vigour and health of <i>Silybum marianum</i> (L.) Gaertn. seeds	13
Jingfu Zhang, Jinxin Liu, Zhonglan Zhang, Shimei Pan, Li Yang, Shoujun Yang Rejuvenating older apple trees by root pruning combined with arbuscular mycorrhizal fungi	27
Youssef Roupheal, Marios C. Kyriacou, Paola Vitaglione, Maria Giordano, Antonio Pannico, Antonio Colantuono, Stefania de Pascale Genotypic variation in nutritional and antioxidant profile among iceberg lettuce cultivars.....	37
Mohammad Reza Safari Motlagh Comparison of pathogenicity of <i>Fusarium equiseti</i> and <i>Colletotrichum graminicola</i> on <i>Echinochloa</i> spp.	47
Biserka Milić, Ranko Čabilovski, Zoran Keserović, Nenad Magazin, Jelena Tarlanović Interactions between nitrogen fertilization and apple fruit thinning with NAA	55
Murat İsfendiyaroğlu Yellow wild olives (<i>Olea europaea</i> L. subsp. <i>oleaster</i>) from Western Turkey	67
Edyta Derkowska, Lidia Sas Paszt, Sławomir Głuszek, Paweł Trzciniński, Michał Przybył, Mateusz Frąć Effects of treatment of apple trees with various bioproducts on tree growth and occurrence of mycorrhizal fungi in the roots	75
İlker Sönmez, Hüseyin Kalkan, Halil Demir, Recep Külcü, Osman Yaldiz, Mustafa Kaplan Mineral composition and quality parameters of greenhouse-grown lettuce (<i>Lactuca sativa</i> L.) depending on fertilization with agricultural waste composts	85
Honorata Danilcenko, Elvyra Jariene, Alvyra Slepeliene, Barbara Sawicka, Sandra Zaldariene The distribution of bioactive compounds in the tubers of organically grown Jerusalem artichoke (<i>Helianthus tuberosus</i> L.) during the growing period	97
Irfan Afzal, Abdul Rahim, Muhammad Qasim, Adnan Younis, Aamir Nawaz, Muhammad Amir Bakhtavar Inducing salt tolerance in french marigold (<i>Tagetes patula</i>) through seed priming	109
Radoš Pavlović, Jelena Mladenović, Nenad Pavlović, Milan Zdravković, Dragana Jošić, Jasmina Zdravković Antioxidant nutritional quality and the effect of thermal treatments on selected processing tomato lines	119
Jacek Gawroński, Elżbieta Kaczmarska, Magdalena Dyduch-Siemnińska Assessment of genetic diversity between <i>Vaccinium corymbosum</i> L. cultivars using RAPD and ISSR markers ...	129
Stanko Vršič Rooting of rootstock 'Börner' and its compatibility with various wine- and table-grape varieties	141
Anna Kiettyka-Dadasiewicz, Sylwia Okoń, Tomasz Ociepa, Beata Król Morphological and genetic diversity among peppermint (<i>Mentha × piperita</i> L.) cultivars	151
Giancarlo Fascella, Youssef Roupheal Influence of container volume and irrigation system on photosynthesis, water productivity and growth of potted <i>Euphorbia × lomi</i>	163
