|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Sylwia Goławska, Iwona Łukasik, Artur Goławski</b><br>Black bean aphid populations and chlorophyll composition changes as responses of guelder rose to aphid infestation stress conditions .....                                                                                                              | 3   |
| <b>Murat Güneri, Zeynel Dalkılıç</b><br>Effects of salicylic acid application on germination, growth and development of rough lemon ( <i>Citrus jambhiri</i> Lush.) under salt stress .....                                                                                                                      | 13  |
| <b>Mehboob Alam, Shaukat Ali, Syed Tanveer Shah, Zawar Hussain, Liaqat Ali, Abdur Rab, Asim Muhammad, Sultan Akbar Jadoon, Masood Ahmad, Imran Ahmad</b><br>Effect of chitosan on post-harvest shelf life of persimmon ( <i>Diospyros kaki</i> L.) .....                                                         | 27  |
| <b>Izabela Weremczuk-Jeżyna, Liwia Lebelt, Dorota Piotrowska, Weronika Gonciarz, Magdalena Chmiela, Izabela Grzegorzczak-Karolak</b><br>The optimization growth of <i>Dracocephalum forrestii</i> in RITA® bioreactor, and preliminary screening of the biological activity of the polyphenol rich extract ..... | 45  |
| <b>Adam T. Wojdyła, Magdalena Ptaszek, Anna Jarecka-Boncela</b><br>Fungicides and biotechnical agents in the protection of heathers against <i>Pestalotiopsis sydowiana</i> and their influence on plant growth .....                                                                                            | 61  |
| <b>Joanna Golian, Zbigniew Anyszka, Joanna Kwiatkowska</b><br>Multifunctional living mulches for weeds control in organic apple orchards .....                                                                                                                                                                   | 73  |
| <b>Youssef Ait Bella, Said Bouda, Youssef Khachtib, Abdelmajid Haddioui</b><br>Biochemical composition and antioxidant activity of Moroccan plum cultivars .....                                                                                                                                                 | 85  |
| <b>Małgorzata Chrzęszcz, Katarzyna Dos Santos Szewczyk, Agnieszka Dąbrowska, Dorota Tchórzewska</b><br>Comparative analysis of the biotechnological potential of <i>Knautia drymeia</i> Heuff. and <i>K. macedonica</i> Griseb .....                                                                             | 99  |
| <b>Katayoon Oroji Salmasi, Seied Mehdi Miri, Rahim Gharesheikhsbayat, Mohiedin Pirkhezri, Daryoush Davoodi</b><br>Pomological evaluation and GT-biplot analysis of promising open-pollinated genotypes of apricot ( <i>Prunus armeniaca</i> L.) .....                                                            | 119 |
| <b>Aykut Topdemir, Abayhan Buran</b><br>Determination of antioxidant activity and phenolic and flavonoid content of <i>Ocimum basilicum</i> L. callus .....                                                                                                                                                      | 133 |
